## The Mishamikoweesh Water Partnership

*"They come into the world as light, and because of circumstances, their light goes out." - Elder Ellen Virginia Cook, PWRDF Indigenous Advisory Council on the desperate circumstances that lead to high youth suicide rates.*

**W**ater is Life. Water is dignity. Water is opportunity. Water is justice. Lack of clean, running water impacts physical and mental health, hygiene and access to education. Mishamikoweesh leadership identify clean water as central to their vision of a good life for their people. In response to the needs articulated by Mishamikoweesh leadership, this gift of water is part of the \$150,000 we are raising for a water truck in Kingfisher Lake.

Kingfisher Lake has a population of 500 people on reserve, most of whom access water through tanks attached to their homes and a water delivery system from the treatment plant. Roads are rough, wear and tear on the vehicles is significant, repair parts are hard to come by, and the population is growing. A new water truck will significantly increase the reliability of clean, running water in this community. PWRDF hopes to use funds raised for this work as leverage for accessing further grants which will see each dollar go further in addressing long-term water needs in this community.

The gift you have received is part of a nation-wide movement to equip all Canadians with clean water, a basic human right. You are part of building a path forward where all Canadians have access to safe, clean, living water.
